

Tubas & Trombones

Godinton house trip

On Wednesday 12th June the children will be attending our class trip to Godinton House. We will be completing our helping hands challenge, exploring the area and completing tasks linked to our science and Geography work. Please could you ensure that you have completed the permission slip sent out by the office.

Your child will need to wear their school jumper with trousers (that you are happy to get dirty) and wellies. Please ensure they bring their packed lunch in an easy to carry bag. We will leave the school grounds at 9.30 am and return to school for 2.30pm.

Transition Week

The week beginning the 1st July the children will spend a few afternoons with their new teacher in Year 3.

During this week the children will take part in activities that will help the new class teacher to get to know them and build positive relationships with all the children. Please look out for additional information closer to the time.

Hello!

Welcome to our newsletter for **Term 6**. We are looking forward to an exciting final term! If you have any queries please make use of our class email:

tubas@east-stour.kent.sch.uk

or

trombones@east-stour.kent.sch.uk

Topic

Our topic for this term is Helping hands. We will be completing lots of activities this term to explore how we can help others.

Warmer weather

As the weather begins to warm up please ensure your child brings a named water bottle daily. Sun hats may be useful for outside play and you may want to apply sun cream before they attend school.

English

The children will be continuing with Literacy or RWI lessons this term. Our book for this term is *Grandad's Secret Giant* by David Litchfield, the book explores how a secret giant helps the community of Gabelview. We will be looking at non-fiction writing and creating our own stories.

In guided reading we will be exploring a variety of traditional tales and our class read will be the *BFG* by Roald Dahl.

Numeracy

In Maths this term we will be exploring statistics and revisiting time and money. We will also be exploring problem solving tasks in which the children will need to use a range of learnt strategies to solve problems.

Geography

In Geography we will be exploring the 7 continents and five oceans, learning their names and where they are on a map. We will also be looking at the differences between human and physical geographical features.

Science

This term we will be continuing to explore plants. The children will be planting seeds in our outside area. Developing an understanding of what seeds and bulbs need to grow and exploring where our food comes from.
